# About Us.

## **Global Sourcing. Reliable Delivery. Trusted Project Support.**

In today's market, success is rarely defined by price alone. It is defined by how reliably you source, how efficiently you move, and how confidently you deliver. That is where KFS International steps in.

Based in Dhaka, Bangladesh, KFS International supports businesses with end-to-end trading, procurement, logistics, machinery, and project supply solutions. Through a vetted supplier network across Asia and Europe, the company helps clients secure the right materials and equipment with better control over quality, documentation, timelines, and cost.

For contractors racing against deadlines, manufacturers protecting production continuity, traders seeking dependable supply channels, and institutions requiring compliant, coordinated delivery, KFS International serves as a practical, responsive, and solutions-driven partner.

## MISSION

To deliver reliable sourcing, compliant trading, and end-to-end logistics-so clients can build, manufacture, and operate with confidence.

## VISION

To be the most trusted bridge for materials, machinery, and technical support connecting global suppliers to high-impact projects in Bangladesh and beyond.

## A Partner Built for Modern Supply Challenges

Cross-border sourcing is no longer just about buying products. It is about securing dependable partners, managing compliance, coordinating freight, handling documentation, and ensuring materials arrive when and where they are needed. KFS International was built to simplify that complexity.

The company connects verified suppliers to Bangladesh and wider global markets, while providing support across procurement, import and export, indenting, contracting, consultancy, C&F, freight forwarding, construction design support, technical support, and machinery sales and rental.

# Who We Serve ?

We work closely with organizations that cannot afford procurement delays, unclear specifications, or fragmented vendor coordination. We provide service to sectors including:

## This makes KFS International well positioned for:

- Corporate companies seeking dependable sourcing and vendor coordination
- Traders and wholesalers looking for competitive supply access
- Industrial buyers requiring material consistency and on-time shipment
- Government and institutional buyers needing structured, compliant support
- Global companies seeking a responsive regional sourcing and logistics partner

# What We Deliver

## 1) Trading & Minerals

KFS International supplies construction-grade and industrial mineral products sourced from trusted international manufacturers and suppliers. Its listed product range includes:

**Clinker, gypsum, slag, fly ash, cement, calcium carbonate, limestone, stone, LPG, and coal.** These materials are positioned for construction, cement manufacturing, infrastructure, industrial use, and energy-related applications.

**Client value:**

Reliable sourcing, competitive pricing, material suitability, and coordinated logistics for uninterrupted operations.

## 2) Machinery Sales & Rental

KFS International provides construction and industrial equipment through both sales and rental models, backed by technical guidance and operational support.

**Client value:**

Flexible equipment access without unnecessary procurement friction.

## 3) Logistics, Freight & C&F

The company supports freight forwarding, customs clearance, cargo documentation, shipment planning, booking coordination, tracking, and delivery support.

**Client value:**

Stronger shipment visibility, fewer coordination gaps, and smoother origin-to-destination movement.

## 4) Design & Technical Assistance

KFS International also offers construction design support, technical consultation, project assistance, and after-sales coordination for issue resolution.

**Client value:**

A more complete project support model, not just product supply.

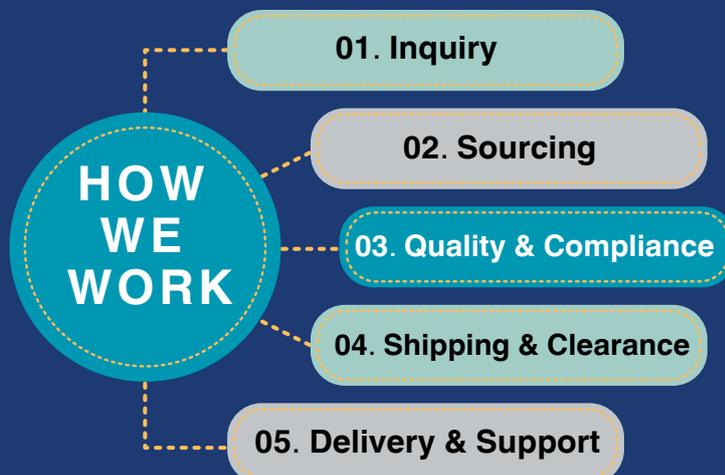

## WHY BUSINESSES CHOOSE US?

KFS International states that it works with a vetted international network across Asia and Europe to secure quality products, manage logistics, and reduce procurement complexity. Its value proposition centers on:

- Global supplier access across Asia and Europe
- Competitive pricing through direct sourcing
- Quality documentation, including specifications and certificates where applicable
- A single point of contact from sourcing to shipping, delivery, and support

## WHAT THIS MEANS FOR YOUR BUSINESS

When supply chains are fragmented, time is lost in handoffs. KFS International reduces that risk by giving clients a coordinated structure: one team managing supplier alignment, shipment planning, documentation, clearance support, and delivery follow-through. That translates into clearer communication, tighter cost control, and more dependable execution. This conclusion is an inference drawn from the company's published business process and service model.

## **GLOBAL REACH, LOCAL ACCOUNTABILITY**

We identify ourselves as a Dhaka-based company while also highlighting trade relationships with Bangladesh, USA, Australia, UAE, China, India, Vietnam, Malaysia, and Thailand. We also have liaison offices in United States, Australia, Canada, and Europe.

**LOCAL RESPONSIVENESS  
IN BANGLADESH.  
INTERNATIONAL REACH ACROSS  
MAJOR SUPPLY CORRIDORS.**
